

GOOD PRACTICES

Distretti Dell'Economia Civile

LEGAMBIENTE DEFINES THE CIVIL ECONOMY DISTRICT AS A PROCESS AIMED AT USING THE UNUSED RELATIONAL POTENTIAL TO IMPLEMENT THE DEVELOPMENT OF SPECIFIC TERRITORIAL CONTEXTS, A DEVELOPMENT THAT CONCERNS AT THE SAME TIME THE SOCIAL, ECONOMIC, CULTURAL AND ENVIRONMENTAL DIMENSIONS.

1 Context

- Lack of local development initiatives in a sustainable and therefore civil key.
- Need for collaboration and active participation of all the realities that live in the area, be they companies, economic subjects, third sector, institutions and citizens.

2 Target group

All key actors in the territory, always focusing on the citizens.

3 Objective: Sustainable, Innovative and Inclusive Development

The goal of a district is the common interest, sustainable and innovative development that strives to leave nobody out, to fight against social inequalities, to defend the environment and to build a community where people are happier.

4 Training and Support to the Districts

1. District focus meetings
2. Focus groups
3. Mapping
4. Resolution by administrations
5. Planning on "district" specific activities

5 Potential-based methodology

It is based on a specific methodology called "Designing the potential of territorial contexts" through a process of research-action that, starting from the mapping of the territory in its demographic, economic, environmental, social, civic innovation, civil economy dimensions and the analysis and deepening of the dimensions related to the perception and local knowledge of the community, produces a new reading of the context thanks to the superimposition of maps to develop community innovation itineraries in a participatory way.

6 Results

- They currently have more than 10 "Districts" in progress at different stages of development.
- The results vary from one to another because they depend on the wishes and needs of the key actors.

LEGAMBIENTE is a non-profit association, formed by citizens who fight for the protection of the environment in all its forms, the quality of life, a more equitable, just and supportive society.
